Forecast for Friday 24 Dec 2021

Weather: A chilly start with a few lingering snow showers through morning, but the day will be increasingly bright with some sunshine into the afternoon. Clear skies and an early frost through evening.

Chance of cloud free mountain/hill tops above 800m: 30% increasing 80%.

Visibility: A cloudy start with areas of cloud rather extensive above 500m or so across most ranges, although the immediate West Coast and Skye may only see patches above 700m. From late morning, this will lift and clear from the north to bring much improved visibility and air will have exceptional clarity. Little, if any low level cloud through evening.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View

Fresh snow cover expected across the southern ranges, this leading to difficult and slow progress in some places. Afternoon sunshine may lead to some glare off the snowpack. Note the risk of gales extends down to around 800m.

Forecast for Saturday 25 Dec 2021

Weather: Cold and clear through early morning on Christmas Day with a widespread frost and little if any low level cloud. It will remain dry and sunny through the day then clear into evening. The keen easterly wind will be a significant feature of the day, however, as winds reach gale force on the most exposed ground.

Maximum wind: East 25-30 gusting 40-50mph.

Chance of cloud free mountain/hill tops above 800m: 95%.

Visibility: Isolated fog patches are possible in the glens initially, but in general cloud will be limited and well above the summits. Excellent visibility.

Temperature: **Glens:** Around freezing throughout.
At 800m: Minus 5 Celsius. Feeling bitterly cold.
Freezing level: 200m or lower.
